My Approach to Poker Coaching

- This is a bespoke coaching service. All lesson outlines are subject to change as I will make an assessment on what the correct lesson content is to improve your game.
- Game theory orientated with strong exploitative adjustments.
- I utilise a custom Holdem Manager 2 HUD and other software for studying and increasing profitability in game.
- Game selection, bankroll management and how to study smart.
- 3 steps to becoming a better player: Analysis, theory based learning and review.

Resources Used

- I have prepared content in advance for use in lessons to assist with the learning process during the session. These include but are not limited to, PIOsolver models, node locking examples, aggregation reports, equilab models, PowerPoint presentations of common theory points and HM2 filters.
- PIOsolver, PowerPoint, Pokerstrategy.com Equilab, HM2/PT4.
